

Did your last opportunity just pass by?

JOIN OUR TEAM IN A

INTERNSHIP IN RENEWABLE ENERGY

As a Mexican company we, the Tecnologia Inteligente Group, short Tecnoligente, are following our aim to make Mexican cities become smart according to their energy and traffic infrastructure. Examples from inspiring cities in Europe lead our way and offer the best technology to bring to the Mexican market.

We want to offer you the opportunity to test your knowledge about alternative energy technologies in a real-life situation from our European office in Jönköping, Sweden. Evaluate with us sustainable Power Solutions and technological equipment to build collaborations in the Nordics for Mexico.

QUALIFICATIONS: OPERATING FIELDS:

- Bachelor Studies in Engineering
- Talent combined with Technology passion
- Understanding of the Industry is a plus
- Collaboration and communication skills
- Good knowledge of English and Swedish/Danish
- Research in alternative Power Solutions
- Develop & plan of Sustainable Development
- Consulting in Green Energy
- Technical Meeting Support

FURTHER INFORMATION:

- Internship for MAY and/or JUNE
- Application deadline - 30 of April 2014
- Kindly send CV and Cover Letter to:
